

Appendix 3 - M11 Junction 8 Improvements

- A3.1 M11 Junction 8 serves as the main point of access to the strategic road network for the town of Bishop's Stortford and its surrounding area, as well as London Stansted Airport. It also provides access to the A120, an east-west route connecting Standon at the most westerly point with Harwich on the east coast; and the B1256, which provides an alternative access to the strategic road network for Uttlesford District.
- A3.2 Growth is planned both in and around Bishop's Stortford (within East Hertfordshire District) and within Uttlesford District, in addition to potential expansion of London Stansted Airport, both of which are likely to increase traffic demands at Junction 8.
- A3.3 Short to medium term proposals to increase capacity through the interchange have been identified. The Greater Cambridge Greater Peterborough Local Enterprise Partnership has secured £1,000,000 to undertake these improvements. Proposals include widening on the A120 link from Bishop's Stortford, a dedicated free flow left turn from the M11 southbound exit slip to the A120 eastbound, and widening on the M11 northbound exit slip. These proposals are estimated to cost upwards of £5,000,000; therefore, there will also need to be developer contributions. Timescales for the delivery of these proposals are still to be confirmed but are expected in 2018.
- A3.4 Longer term significant improvements will be needed at Junction 8 to support expansion of London Stansted Airport and growth identified by the West Essex/East Hertfordshire Housing Market Area. Highways England is developing the next round of Route Strategies, which will be a key building block in the Government's next Road Investment Strategy. Route Strategies bring together information from motorists, local communities, construction partners, environmental groups and across the business sector to help better understand the performance of the strategic road network, to shape investment priorities, to improve the service for road users and to support a growing economy. The evidence collected and the indicative solutions identified - along with the outcomes of the strategic studies - will be the foundation of Highways England's first 'Strategic Road Network Initial Report' to be submitted to Government in 2017.
- A3.5 Through the Route Strategies we are committed to highlighting the need for investment in Junction 8.
