

At present no other opportunities outside of the Epping Forest District administrative area have been identified as providing the potential to act as Strategic Alternative Green Space.

### **Monitoring and Review:**

29. It is important to recognise that whilst the schemes/resources identified, and the costs attributed cover the period up to 2033 this is an Interim Strategy. Monitoring of both the projects themselves, and further visitor surveys have been identified within the costings set out in Table 1 above. This includes undertaking a further Visitor Survey during the period June – August 2019 following which this Interim Strategy and, if necessary, the ZOI will be reviewed. In addition additional and/or alternative projects may arise in the future, or income generation created such as to off-set some of the costs identified above. Such projects and income-generating activities could, for example, involve the potential use of City of London Corporation owned 'buffer lands' as Strategic Alternative Natural Green Space, the need for increases in Keepers/Rangers or as a result of income gained from car parking charging or bike hire. It is also recognised that during the lifespan of the indicated projects there may be changes in terms of Local Plan Housing Requirements across the Zone of Influence. Any of these may result in a need to review and amend:
- i) The projects identified;
  - ii) The costs identified; and
  - iii) The apportionment from which contributions are sought in terms of the sum of monies that each authority is required to secure including the addition of authorities not currently identified above.
30. In reviewing further iterations of the Strategy beyond that indicated for 2019, it is important that an appropriate balance is achieved in terms of ensuring that the schemes proposed are achieving their purpose, and providing certainty to both the development industry and local planning authorities in terms of the requirements being sought such that neither the Strategy or the ZOI is reviewed year on year (this is distinct from the annual review of costs referred to in paragraph 20 above). Consequently, it is proposed that further reviews will be undertaken following the receipt of the outputs from the Visitor Surveys proposed in Years 4 and 9.
