It is not possible to guarantee the fulfilment of any estimates or forecasts contained within this report, although they have been conscientiously prepared on the basis of our research and information made available to us at the time of the study.

The author(s) will not be held liable to any party for any direct or indirect losses, financial or otherwise, associated with any contents of this report. We have relied on a number of areas of information provided by the client, and have not undertaken additional independent verification of this data.

1 Introduction

- 1.1.1 A large proportion of the provision of built sports facilities in Epping Forest is situated at education facilities across the Local Authority.
- 1.1.2 It is therefore important to understand the quantity, quality and accessibility of built facilities within schools, academies and further education establishments.
- 1.1.3 To gather this information, the Consultancy Team has attempted to consult with each of the schools in the local authority, recording their current provision, accessibility, usage and future plans for built sports facilities.
- 1.1.4 Table 1.1 overleaf provides a summary of the consultations undertaken as part of this study. These findings will be assessed as part of the full Built Facility Strategy report.

Epping Forest Built Facility Strategy
