Subject: Re - efdclocal.org. Planning permission.

Dear Louise

I object to the housing application, ED114/ED114A to build on green belt, because of the lack infrastructure. There is a shortage of doctors, dentists, schools and community facilities to accommodate all the extra people.

By building all these extra developments there seems to be only one way in and out, making it dangerous for emergency services to access people quickly. As well as adding to the pollution in the area.

Yours sincerely

Michael & Anne Lee
