

PROGRESS WITH MAIN MODIFICATIONS: FEBRUARY 2021

On 2 October 2020, I published an update to inform interested parties that I had received the majority of the Council's work required to finalise the Main Modifications (MM) Schedule for public consultation. I was unable to consider this immediately due to other work commitments, but I have been working through it over the past few weeks and have provided feedback to the Council where necessary. The Council has then sought to address the points I have raised.

The volume and complexity of the documentation means that the process of finalising the MM Schedule is taking some time and the current lockdown measures have unfortunately prolonged it. However, please be assured that progress is being made and both myself and the Council hope to be able to provide more information about the next steps shortly.

Inspector Louise Phillips
